YottaFlex AI

RECRUITMENT DRIVE

Candidate Project Submission Guidelines

Show us how you think, build, validate, and work with AI.

YOUR CHALLENGE WINDOW

72 HOURS

Your submission window is 72 hours.

Artifact timestamps will be used to verify the window.

01

MAKE IT RUN

EXECUTABLE

Submit working, executable code. Include clear steps so another person can install dependencies, configure the project, run it, and verify key behavior.

02

SHOW YOUR WORK

PUBLIC REPOSITORY

Use a public GitHub repository. Make the evolution of your work understandable through the code, meaningful commits, and supporting context.

03

USE LLMs TRANSPARENTLY

PROMPT HISTORY REQUIRED

LLM tools are allowed. Submit your prompt history and explain where AI accelerated your work, where you relied heavily on it, and what you personally reviewed, changed, or validated.

04

MAKE YOUR REASONING VISIBLE

EXPLAIN THE WHY

Help reviewers understand the problem, assumptions, key decisions, trade-offs, testing approach, limitations, and how you know the solution works.

BE READY TO WALK US THROUGH YOUR SOLUTION.

We value sound judgment, working software, honest AI disclosure, and clear communication.
